DIN Geprüft

THE CASE IN ONE PAGE

Absorbs better, faster. **Leaves no plastic behind.**

Legacy oil-only absorbents are made of polypropylene, a plastic that ends up in a landfill or an incinerator after one use. Clay floor sorbents are heavy and contain crystalline silica. Green Boom replaces both with plant-based absorbents that hold more oil and leave less behind.

UP TO 10×
its weight in oil, depending on oil type and conditions

Fast
wicking that locks oil in, so it does not leach back out

0%
plastic. No polypropylene in any absorbent

100%
biobased content, USDA Certified Biobased Product

HOW WE COMPARE

	GREEN BOOM	POLYPROPYLENE PADS, SOCKS, BOOMS	CLAY FLOOR SORBENT
Made from	**Natural fibers and cellulose, 100% biobased**	Polypropylene, a petroleum plastic	Mined clay
Plastic in your waste stream	**None**	All of it	None
Absorbs	**Oil only. Repels water**	Oil only. Repels water	Any liquid, water included
Leaching & encapsulation	**Encapsulates oil and locks it in; does not leach**	Leaching varies by product	Cannot encapsulate oil; leaves a slick behind
Crystalline silica	**None**	None	Contains it; carries a warning label
End of life	**Biodegradable; can be treated with Oily™**	Landfill or incineration	Landfill

Competitor characteristics are general and based on published manufacturer information and independent testing of typical products in each category.

THE SCIENCE BEHIND GREEN BOOM

Engineered from nature. **Built to outperform plastic.**

Patented, plant-based absorbents that take in oil fast, hold it securely, stand up to hard use, then break down when the job is done.

HOW IT WORKS

1. **Wick**
   Our patented treatment makes both the fiber fill and cotton skin pull oil in and push water away.

2. **Entrain**
   Oil is drawn deep into the fiber structure and held there. It stays locked in instead of leaching back out.

3. **Break down**
   Add Oily™ and naturally occurring microbes digest the hydrocarbons, leaving material that can be composted where regulations allow.

PERFORMANCE THAT SETS US APART

Stronger
Patented, water-repellent cotton skins resist tears, UV, and abrasion.

Lasts longer
Durable construction stays in service longer between changeouts.

Multi-use
Pads can be wrung out and reused up to 10 times.

Locks oil in
Oil stays in the fiber, with no leaching when you pick it up.

Zero polypropylene
100% biobased skins and fill. No plastic in your waste stream.

Compostable
With Oily™ microbes, spent absorbent breaks down instead of going to landfill.

WHERE THE SAVINGS COME FROM

Lower cost, **spill after spill.**

Green Boom lowers what you spend on every spill. You buy fewer units because each one holds more oil, spend less time changing them out, and pay less to haul away what is left, with no plastic in the drum.

COST DRIVER	WHERE GREEN BOOM SAVES
Purchase price What shows up on the invoice.	+ Competitive, and only part of the story.
Units used How many pads, socks, or bags each spill takes.	+ More oil per unit means fewer units.
Changeouts & labor Time spent replacing saturated absorbent.	+ Fast wicking; pads reuse up to 10 times.
Disposal Drums, weight, hauling, and landfill or incineration fees.	+ Less spent material, lighter than clay.
Plastic & reporting Plastic waste counted against your sustainability goals.	+ Zero plastic. A path to zero waste with Oily™.

EXAMPLE · LOOSE ABSORBENT VS. CLAY

Cleaning up **1 gal of spilled oil**

	CLAY SORBENT	GREEN BOOM
Sorbent needed	~25 lb (½ of a 50-lb bag)	~1.7 lb (1/18 of a 30-lb bag)
Oil absorbed	1 gal (~7.3 lb)	1 gal (~7.3 lb)
Waste to haul	**~32 lb**	**~9 lb**
Cleanup	Smears; leaves a slick	Locks oil in; one sweep
Crystalline silica	Yes, with a warning label	None
100 gal a year	**50 bags · ~3,230 lb waste**	**6 bags · ~900 lb waste**

Clay at 2 gal per 50-lb bag (independent testing); Green Boom at up to 18 gal per 30-lb bag; motor oil at ~7.3 lb per gal. Actual results vary with oil type and conditions.

15×
less sorbent per gallon

72%
less waste to haul

OIL-ONLY SPILL KITS AND REFILLS

Spill Kits and Refills

For land use

One kit, any spill. **No polypropylene.**

Pre-packed kits of loose absorbent, socks, pillows, pads, and booms for the truck cab to the plant floor, plus boxed refills. Custom kits available.

67.5 gal
in the 95-gal kit

5 + 2
kits and refill kits

0%
plastic absorbents

100%
biobased absorbents

5 Kit sizes.
From an 11-lb strap bag that absorbs up to 10 gallons to a 95-gallon drum that holds up to 67.5 gallons.

2 Refill kits.
Boxed refills restock the 20-gal drum and the 30-gal drum. Keep the drum; replace what you used.

Zero Plastic.
Every absorbent in the kit is 100% biobased.

KIT	CONTAINER	CONTENTS	ABSORBS	WEIGHT	PART NO.
10-gal kit	Strap bag	3 socks · 25 pads · bags	10 gal	11 lb	SK010ISM
20-gal kit	20-gal drum	3 socks · 2 pillows · 40 pads · bag · PPE	20 gal	29 lb	SK020ISPM
20-gal refill kit	Box	3 socks · 2 pillows · 40 pads · bag · PPE	20 gal	20 lb	SK020ISPM2R
30-gal kit	30-gal drum	5 socks · 5 pillows · 50 pads · bag · PPE	30 gal	42 lb	SK030ISPBM
30-gal refill kit	Box	5 socks · 5 pillows · 50 pads · bag · PPE	30 gal	28 lb	SK030ISPBMR
65-gal kit	65-gal drum	10 lb loose · 10 socks · 4 pillows · 100 pads · PPE	57 gal	78 lb	SK065S
95-gal kit	95-gal drum	10 lb loose · 7 socks · 8 pillows · 2 booms · 100 pads · PPE	67.5 gal	108 lb	SK095S

Absorbents meet ANSI and MIL-spec standards for static decay · Absorbs oil only, not water · Passes TCLP

WHERE TO USE

Truck cabs & fleets · Aviation ground support · Maintenance shops · Plants & warehouses

OIL-ONLY LOOSE ABSORBENT

Loose Absorbent

For land use

Lighter than clay. **No silica dust.**

Fast-wicking cellulose granules that absorb oils and fuels, not water. More absorbed per pound means less to sweep, bag, and pay to haul.

18 gal
per 30-lb bag

0
crystalline silica

0%
plastic

100%
biobased content

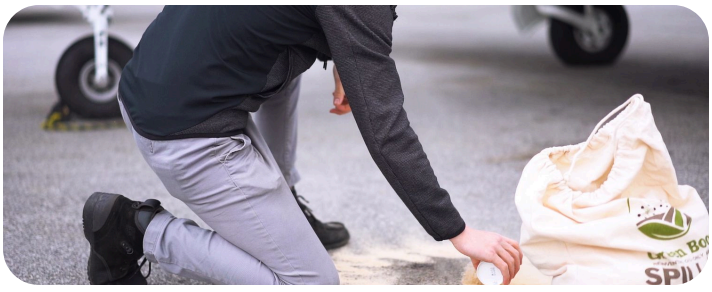
0 Silica.
Clay floor absorbents contain crystalline silica and carry a warning label. Green Boom contains none.

More Per pound.
A 30-lb bag absorbs up to 18 gallons, and the granules lock oil in for a clean sweep.

Less Weight.
Lighter than clay to carry, spread, and send for disposal.

SIZE	BAG WEIGHT	ABSORBS PER BAG	PER CASE	PART NO.
Small	3 lb	up to 1.8 gal	6 bags	L0003S-6
Medium	10 lb	up to 6 gal	1 bag	L0010S
Large	30 lb	up to 18 gal	1 bag	L0030S

Hydrophobic · Non-toxic · Silica-dust free · Recyclable paper bags · Absorbs oils and fuels, not water · Passes TCLP



WHERE TO USE — Shop & plant floors · Truck & fleet leaks · Aviation ramps · Equipment & machine leaks

OIL-ONLY ABSORBENT PADS

Pads

For land & water

One pad. **Up to 10 uses.**

Cotton oil-only pads that pick up oil, leave water, and go back to work. Up to 0.4 gallons per pad and 40 gallons per case.

UP TO 10×
uses per pad

40 gal
per 100-pad case

0%
plastic

100%
biobased content

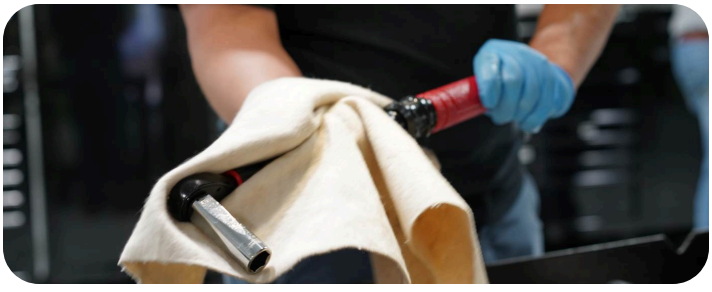
Up to 10× Uses.
Wring out and reuse each pad up to 10 times before it is spent.

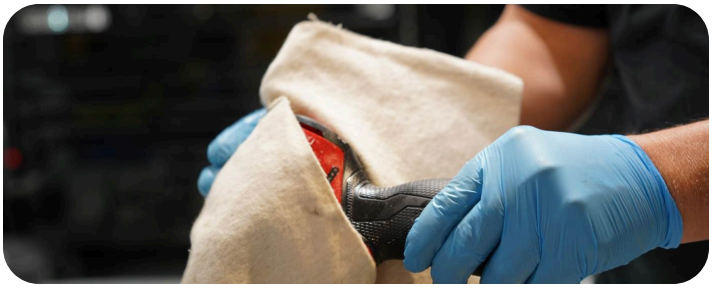
Zero Plastic.
Cotton fabric replaces meltblown polypropylene. Nothing synthetic goes in the bin.

Less Waste.
Reuse plus higher capacity means far fewer pads bought, bagged, and hauled.

ITEM	DIMENSIONS	ABSORBS PER PAD	PER CASE	ABSORBS PER CASE	CASE WEIGHT	PART NO.
Oil-only pad	15" × 20"	up to 0.4 gal	100	up to 40 gal	20.5 lb	M2015

Completely hydrophobic · UV-resistant cotton fabric · Agglomerates and locks in oil for easy cleanup · Passes TCLP





WHERE TO USE

- Workbenches & tools
- Under equipment
- Fleet maintenance bays
- Wiping & skimming oil

OIL-ONLY ABSORBENT PILLOWS

Pillows

For land & water

Big capacity. **Small footprint.**

Drop one under a leak, into a sump, or onto the water. Each pillow soaks up oil, repels water, and keeps plastic out of your waste stream.

1 gal
per 16" × 16" pillow

Fast
wicking; oil stays locked in

0%
plastic

100%
biobased content

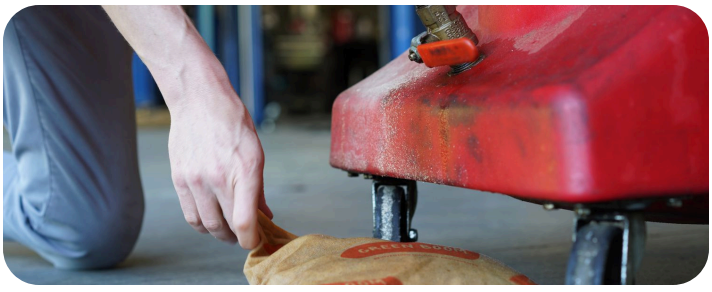
High Performance.
Fast wicking pulls oil in and locks it there, so it doesn't leach back out.

Zero Plastic.
100% biobased canvas and fill. Nothing petroleum-based goes into the drum.

Less Waste.
Up to a gallon per 16" pillow means fewer units used and less spent material to dispose of.

SIZE	DIMENSIONS	ABSORBS PER PILLOW	PER CASE (10)	CASE WEIGHT	PART NO.
Small	10" × 10"	up to 0.5 gal	up to 5 gal	12 lb	P1010S
Medium	12" × 12"	up to 0.75 gal	up to 7.5 gal	17 lb	P1212S
Large	16" × 16"	up to 1 gal	up to 10 gal	20 lb	P1616S

Completely hydrophobic · Absorbs oil only, not water · For land, marine, and industrial spills · Passes TCLP



WHERE TO USE — Sumps & pits · Under drums & leaks · Engine bays · Bilges & still water

OIL-ONLY ABSORBENT SOCKS

Socks

For land use

Ring the leak. **Skip the plastic.**

Moldable socks that wrap machinery, drains, and drip zones. Each 48-inch sock holds up to 1.2 gallons of oil, with nothing made from petroleum.

1.2 gal
per 3" × 48" sock

Fast
wicking; oil stays locked in

0%
plastic

100%
biobased content

High Performance.
Fast wicking pulls oil in and locks it there, so it doesn't leach back out.

Zero Plastic.
100% biobased skin and fill. No polypropylene fibers left on the shop floor.

Less Waste.
More oil per sock means fewer socks in the drum and less weight to haul.

SIZE	DIMENSIONS	ABSORBS PER SOCK	PER CASE (10)	CASE WEIGHT	PART NO.
Small	3" × 12"	up to 0.3 gal	up to 3 gal	5 lb	S0312S
Medium	3" × 24"	up to 0.6 gal	up to 6 gal	10 lb	S0324S
Large	3" × 48"	up to 1.2 gal	up to 12 gal	20 lb	S0348S

Completely hydrophobic · Tear-resistant, moldable construction · Oil, diesel, fuel, and machine leaks · Passes TCLP

WHERE TO USE — Machine bases · Drain protection · Fleet & aviation ramps · Drip zones & doorways

OIL-ONLY ABSORBENT BOOMS

Booms

For water surfaces

Keep oil off the water. **And plastic out of it.**

Hydrophobic booms that float, wick oil fast, and leave the water behind. Up to 12 gallons per 10-ft boom, with no polypropylene to retrieve, shred, or landfill.

12 gal
per 8" × 10 ft boom

Fast
wicking; oil stays locked in

0%
plastic

100%
biobased content

High Performance.
Fast wicking pulls oil in and locks it there, so it doesn't leach back out.

Zero Plastic.
A cotton-canvas skin over natural fiber fill. No polypropylene to shed into the waterway.

Less Waste.
More oil held per boom means fewer booms to deploy, recover, and pay to haul away.

SIZE	DIMENSIONS	ABSORBS PER BOOM	PER CASE	CASE WEIGHT	PART NO.
Small	3" × 10 ft	up to 3 gal	8	28 lb	B0310S
Medium	5" × 10 ft	up to 6 gal	4	24 lb	B0510S
Large	8" × 10 ft	up to 12 gal	4	48 lb	B0810S

Completely hydrophobic · UV- and tear-resistant skin · Zinc-plated steel clips link sections end to end · Passes TCLP

Custom combo booms. A skirted containment boom with a Green Boom absorbent boom attached, built to order for marinas, outfalls, and moving water. The skirt stops oil slipping underneath; the absorbent boom is 100% biobased.

WHERE TO USE · Marinas & ports · Shoreline protection · Storm-water outfalls · Ponds & retention basins

OILY™ OIL-DEGRADING REMEDIATION

Oily™

Zero-waste end of life

Close the loop. **Break oil down.**

Add Oily™ to the drum of used Green Boom absorbents. Naturally occurring, hydrocarbon-eating bacteria break the absorbed oil down in a few weeks.

20 lb
treated per Oily™-R jar

80 lb
treated per Oily™-L jug

Weeks
to break oil down

Non-GMO
naturally occurring microbes

Weeks, Not years.
Bacteria that thrive on oil break down absorbed hydrocarbons in just a few weeks.

Zero Waste goal.
Plastic-free absorbents plus Oily™ turn spent absorbent into material that can be treated, not just buried.

Lower Disposal cost.
Less waste to transport, and less to pay for at the landfill or the incinerator.

PRODUCT	CONTAINER	SIZE	TREATS UP TO
Oily™-R	Jar	16 oz	20 lb of oily waste
Oily™-L	Jug	64 oz	80 lb of oily waste

Naturally occurring, non-GMO microbes on a mineral carrier · Add to a drum of used Green Boom absorbents and water · Avoid breathing dust; see SDS · Follow local regulations for oily waste

Oily™-R
16 oz jar · treats up to 20 lb of oily waste

Oily™-L
64 oz jug · treats up to 80 lb of oily waste

WHERE TO USE

- Maintenance shops
- Fleet yards
- Plants & warehouses
- Any site using Green Boom

VERIFIED, NOT JUST CLAIMED

Certified biobased. **Approved for spill response.**

USDA Certified Biobased Product

USDA BioPreferred® Program. Third-party tested: 100% biobased content.

DIN CERTCO certified

Biobased products scheme. Registration no. 8C262, under surveillance through 2027.

EPA sorbent determination

Socks, booms, and pillows meet the EPA definition of a sorbent under the National Contingency Plan (40 CFR 300.915(g)).

ISO 9001:2015

Green Boom North America LLC quality management system, registered by Perry Johnson Registrars.

California OSPR

Sorbent license exemption from the Office of Spill Prevention and Response.

ANSI & MIL-spec

Kit absorbents meet ANSI and MIL-spec standards for static decay.

Passes TCLP

Independently tested to the U.S. EPA Toxicity Characteristic Leaching Procedure (SW-846 Method 1311).

THE GREEN BOOM LIFECYCLE

From spill to soil, **with no plastic left over.**

01
Use
Absorb oil, not water. Reuse pads up to 10 times.

02
Collect
Spent absorbent goes in the drum, with no plastic mixed in.

03
Treat
Add Oily™. Bacteria break the oil down in weeks.

04
Return
Biodegradable material, handled per local regulations.
